

TECHNICAL DATA SHEET

Titanium Dioxide Ceramic

Molecular formula : TiO₂

Molecular weight : 79.9

Characters : Ceramic grade product with high purity and good particle size distribution.
Possess good features of good whiteness, strong hiding power, high tint reducing and disperse easily.

Version No.: 2018.09.04

Product specification

Items		Specification	Test Method
TiO ₂ content (wt %)	min.	98.00	GB/T 1706-2006-7.1
Fe ₂ O ₃	max.	0.1	-
Fineness(Residue on 325 mesh sieve)	max.	0.5	-
S	max.	0.05	-
Heat-resistant 1200°C/ h		don't change to gray	-

[Packing]: 25Kg/bag in woven bag lined with plastic bag.

[Uses]: for ceramic industry.
